

PATIENT PORTAL

Patient - Centered Platform for Patient Satisfaction

TSG's web-based intelligent, integrated and personalized communication strategy and solution facilitates and speeds up patient care processes between patients and physicians/hospital.

Our Portal is certified as an [EHR Module](#) by the [Certification Commission for Health Information Technology \(CCHIT®\)](#), an [ONC-ATCB certified](#), which will empower your hospital to achieve the ARRA requirements for Meaningful Use.

This personalized communication tool helps hospitals engage patients and families in their care by authorizing them to securely view, download and transmit their health information and send secure messages, as required by Meaningful Use.

It also allows Eligible Providers and Eligible Hospitals to send patient-specific educational materials to patients, in accordance with Meaningful Use Stage 1 objectives.

Benefits

- Save thousands using our consolidated billing statement (hospital and clinic)
- **Online Bill Payments** - Faster and more efficient than self pay collection and posting of cash
- **Online bill view** - View current and past online hospital bills - reducing patient calls and staff cost
- Multilingual
- Medication refill request
- Patients can Pre-register and Pre-admit
- Kiosk-based services for various healthcare information
- Portal supports bi-directional, real-time integration with a healthcare organization's scheduling system; so patients have the ultimate convenience of directly scheduling and managing their own appointments
- Enhance communication between patients and physicians
- Provide physician and office details to patients at the time of physician selection—at their fingertips
- Access the system with any browser and mobile device such as Android, iPhone, iPad etc.
- Education and research— Provide continuing education for consumers, patients, and clinical staff
- Patients can communicate with caregivers through two-way secured messaging
- Patients can see their medical records online in a safe and secure manner
- Provides patients with hands-on health promotion and preventive tools
- Links all clinical, financial, and demographic data from various IT Systems to facilitate patient needs
- Request for appointments via the web rather than waiting on the phone
- Convert your business office into a 24/7/365 online service without adding additional staff

Let TSG help you meet Patient Centric Meaningful Use Objectives

- Patients are able to request [amendments §170.314\(d\)\(4\)](#) to their records
- Instantly obtain a human-readable [electronic copy of their health information](#), including diagnostic test results, problem list, medication list and medication allergy list
- Timely [access](#) to their electronic health information
- [Communicate](#) with clinical staff regarding their record
- Provide patients with [clinical summaries](#) for each office visit
- Ability to record [patient demographics](#) and [family health history](#)
- Generate and transmit permissible discharge [prescriptions electronically \(eRx\)](#)
- Receive [Patient Care Reminders](#) for appointments, medication and more
- Ability to view radiology [image results §170.314\(a\)\(12\)](#)
- Resources for [Patient Education §170.314\(a\)\(15\)](#)
- [Audit Reports §170.314\(d\)\(3\)](#)

**This The Shams Group product has been tested and certified under the Drummond Group's Electronic Health Records Office of the National Coordinator Authorized Certification Body (ONC-ACB) program as a 2014 Edition Modular Inpatient Electronic Health Record (EHR). Read the full statement here.*
