

Business Continuity Mitigation

Downtime Solutions

Product Overview

Old and manual, paper driven downtime strategies are costly, disruptive and stressful for clinicians, staff and patients. Manage your organization's downtime at with online, robust and transformative approaches to business continuity never available before.

Product Features

- Browser-based interface allows for easy navigation
- View clinical and financial information
- Works over Meditech DR and/or any other vendor data warehouse
- Sort and filter features allows users to view by preference
- Integrate with any document imaging system to show patient scanned documents

Product Benefits

- Nurses and physicians can achieve online access to EMR data during downtime
- Centralize location to view patient information from different facilities databases
- Continue patient registration during downtime
- Data automatically syncs back into HIS (with one click)
- Can increase speed of uptime registration
