# kiosk Patient Kiosk

## Product Overview

An iPad based self-service kiosk: Empowers patients and staff, speeds up your in-take process, and improves overall cash flow via enhanced data capture, insurance eligibility checking and automated upfront co-pay processing.

## Product Features

- Secure patient Identification
- Capture any data in discrete format
- Image capture of driver's license and insurance cards
- Automated insurance eligibility checking
- Digitized forms with e-signature capability
- Printing of forms, patient wristbands, tags and more
- Payment collection
- Wayfinding assistance
- Multilingual capabilities
- Voice narration
- Live chat

## Product Benefits

- Reduce per-patient registration cost by up to 50%
- Personalize each and every element (fields, buttons, dropdowns, checkboxes, text, voice files, etc.) on screen to create custom workflows for each of your admitting departments
- A database engine using open database technology for alerts, triggers, and BI analytics capabilities
- Real-time MPI Database synchronization for speedy MPI search at the kiosk level, and support for EHR downtime
- When your EHR is down, kiosk holds data and auto syncs when system is back up
- AODA compliance
- ADA compliance
